

# MULTI SURFACE CLEANER

## TECHNICAL DATA

|                          |               |
|--------------------------|---------------|
| State at 20°C            | Liquid        |
| Colour                   | Colourless    |
| Boiling point/range      | 140°C – 171°C |
| Specific gravity at 25°C | 0,740 – 0,750 |
| Vapour Pressure at 20°C  | 1,0 Kpa       |
| Flash Point              | +28°C         |
| Spontaneous ignition     | +210°C        |

**OB1 MULTI SURFACE CLEANER IS THE MOST ADVANCED SOLVENT DEGREASER THAT LEAVES NO RESIDUE, IS SAFE TO USE ON PAINTED SURFACES, VINYL, GLASS AND MOST PLASTICS.**

OB1 Multi Surface Cleaner gets the job done with a 100% Aliphatic Hydrocarbon Solvent; OB1 contains no recycled solvents.

Ensure adequate ventilation when using OB1 Multi Surface Cleaner.

## APPLICATIONS

Prepping construction materials like tile, stone, laminates and walls before applying adhesive & sealants to ensure a strong joint.

Degreasing and removal of existing adhesives and sealants. OB1 Multi Surface Cleaner removes grab adhesives, silicone and wax.

Finishing of joints sealed with OB1 Multi Surface Construction Sealant & Adhesive.

OB1 Multi Surface Cleaner dissolves the adhesive layer of duct tape, stickers and masking tape leaving no residue.

Cleaning tools and workshop equipment – OB1 will not attack plastics.

Removal of previous grease layers before re-lubricating, e.g. door hinges. OB1 Multi Surface Cleaner does not corrode the paint.

Cleaning of tough to remove stains like tar.

Safe cleaning of paint and undercoat before spray-painting.

Degreasing and cleaning mechanical parts, motor, brakes, suspension.
